## GEF Communication and Visibility Policy

### **EXTRACT**

#### **Leaflets, Brochures and Newsletters**

31. Publications such as leaflets, brochures and newsletters can be useful in communicating the results of an action to specific audiences. All leaflets and brochures should incorporate the basic elements of the GEF visual identity, i.e. the GEF logo (with or without tagline). Leaflets and brochures produced by a GEF partner must also incorporate a definition of the GEF (boilerplate text). Furthermore, in these cases, the cover page must clearly identify the activity as being part of a GEF-funded activity. Copies, including electronic copies of the publications, should be made available to the GEF Secretariat.

#### **Electronic Communication**

32. All electronic communication disseminating information on GEF-funded projects (websites, newsletter, and social media) should link to the GEF web site. GEF Agencies' webmasters should liaise with the GEF's webmaster to ensure that all materials are properly linked.

## B. Publications

### B2. UNDP (outside of UNDP-GEF) or External Party Publications that include UNDP-supported GEF/LDCF/SCCF-financed projects

When one or more of the projects in a UNDP or external party publication is a UNDP-supported GEF/LDCF/SCCF-financed project, please use the following guidelines.

- **Acknowledgement box:** The support provided by UNDP and the GEF/LDCF/SCCF financing of the project(s) should be recognised in an acknowledgement box in the communications material (typically included on the inside cover). If this is not feasible, then the UNDP support and GEF financing must be acknowledged in the section related to the UNDP-supported GEF-financed project.

a. **UNDP publication acknowledgement box** (to be included in a UNDP-led publication)

b. **External party publication acknowledgement box** (to be included in publications led by external parties)

## B. Publications

---

### B3. Other Products

All communications products featuring UNDP-supported and GEF-financed projects — including videos, brochures, reports, COP flyers, etc. (portfolio- or project-level) — must follow UNDP and GEF guidelines. Other donors and partners should also be acknowledged according to their guidelines.

- See [Enhancing the Visibility of the GEF](#) and [UNDP Communications Toolkit](#)
- **Logos:** The UNDP and GEF logos (and other partner/donor logos, as appropriate) should appear on all project communication materials. Please be sure to obtain permission for logo use when required.
- **Editing:** All types of products should go through substantive editing, copy editing, and proofreading
- **Examples of products:**
  - **VIDEOS:** For videos about UNDP-supported GEF-financed projects, the UNDP and GEF logos must appear at the beginning and/or the end of the video. Where space permits, both the UNDP boilerplate text and the GEF boilerplate text should also appear in the video. View a sample video [here](#) (UNDP and GEF logos appear at the end).
  - **NEWSLETTERS:** [example](#) (UNDP logo at top, partner logos listed at bottom)
  - **PRESENTATIONS:** Standard UNDP ppt templates are available in English, French, and Spanish on the [UNDP Logo & Tagline portal](#)

## Brief Project Description

*for inclusion in dissemination materials, reports,...*  
*(recommended standard text - optional)*

FOR  
ADOPTION  
BY SCM

The UNDP/GEF Project “**CLME<sup>+</sup>: Catalysing Implementation of the Strategic Action Programme for the Sustainable Management of shared Living Marine Resources in the Caribbean and North Brazil Shelf Large Marine Ecosystems**” (GEF ID 5542; 2015-2020) is a 5-year project that aims to facilitate the implementation of a 10-year, politically endorsed *Strategic Action Programme* on the marine environment (the “**CLME<sup>+</sup> SAP**”). The project seeks to achieve this by enabling a progressive transition to ecosystem based management/an ecosystem approach to fisheries (EBM/EAF) in the region, in such a way that a sustainable and climate-resilient provision of goods and services from living marine resources can be secured. Given its geographic scope and comprehensive nature, the Project is uniquely positioned to address the root causes of environmental degradation, in particular the gaps and weaknesses in transboundary and cross-sectoral governance arrangements. The project will assist stakeholders in achieving improved coordination, collaboration and integration among the wide array of ongoing and newly planned projects and initiatives that are of relevance to the wider objectives of the CLME<sup>+</sup> SAP. **[EXPAND HERE ON YOUR ORGANIZATION’S ROLE IN THE CLME+ PROJECT/SAP].**

# LOGOS & TEMPLATES

## CLME+ LOGO(s)

The PEG recommended that the CLME+ PCU should retain, or simply modify, the existing project logo as it is already well established and recognized. It was agreed that the UNDP and GEF logos would be integrated into the CLME+ Project logo.

- **Old CLME Logo will be “updated/refreshed”**, to reflect the transition to CLME+. **Only minor changes**, to keep the old concept recognizable and to make that the linkage with prior efforts (CLME Project) remains evident

→ **Fact that CLME+ covers 2 LME’s needs to be better reflected in “updated” logo**

→ **Project Logo always to be used in conjunction with UNDP & GEF Logos. Co-executing Partner Logo(s) can be added**

ADOPTION  
BY SCM

# LOGOS & TEMPLATES

## CLME+ TEMPLATE

- CLME+ PCU Communications Specialist will develop, in conjunction and consultation with Project Co-executing Partners, a template(s) for Project Reports, incl. for the CLME+ Sub-projects executed by Partner Organizations

# **LEGAL DISCLAIMERS**

# Country & maritime boundaries and disclaimers

## Recommendation from prior project (CLME):

*“do not use EEZ boundaries on maps”*

## But:

*no objection to use of country boundaries, even without the use of disclaimers*

## Proposal for CLME+:

use of EEZ and country boundaries acceptable (and derived statistics), but only when in combination of mandatory Legal Disclaimer, approved by the CLME+ PSC

# **POSSIBLE LEGAL DISCLAIMER**

## **(PROPOSAL FOR CONSIDERATION BY THE CLME+ PSC)**

- “The depiction and use of boundaries, geographic names, designations, and related data used [on maps and] in [other] documents [that are on this site or otherwise] made available by the UNDP/GEF CLME+ Project do not imply any determination on the legal status of any territory, nor does it constitute endorsement or acceptance as to the legal status or frontier of any territory by [the CLME+ Project Coordination Unit], the GEF, the GEF Agency, the Executing Agency, the CLME+ Co-executing Partners, and the CLME+ participating countries. In addition, no guarantee is provided as to the accuracy of the available maps.”

# PROPOSED DECISIONS

## related to Agenda Item # 10

### The CLME+ Project Steering Committee (PSC) Members:

1. commit to **support the development & implementation of the relevant elements of the CLME+ Over-Arching Communication Strategy (the “CLME+ CS”)** (subject to approval of the Strategy Document, and while giving due consideration of existing logistical and financial constraints)
2. **endorse the draft Outline for the CLME+ CS**, as **[presented at] [amended during]** the 1<sup>st</sup> SCM, and recommend that the elements contained in this draft be considered during the development of the full CLME+ Communication Strategy Document (CLME+ Output O2.4)
3. support the request that **CLME+ Sub-Project National Focal Points be formally nominated**, and recommend **coordinated action** in this context **among the CLME+ PCU and the corresponding CLME+ Co-Executing Partner and Principal and Alternate National Focal Points (as applicable)**

# PROPOSED DECISIONS

## related to Agenda Item # 10

### The CLME+ Project Steering Committee (PSC) Members:

4. adopt the 4 “**Communications Protocol**” principles, as [presented at] [amended during] the 1<sup>st</sup> SCM
5. endorse the CLME+ proposal, as [presented at] [amended during] the 1<sup>st</sup> SCM, with reference to the **use of languages and provision of translations during meetings** and in the **production of project outputs & materials**; note is taken in this context by the PSC members that *financial and logistical constraints may apply*
6. adopt the principle that the **GEF Communication and Visibility Policy** is to be adhered to by all CLME+ Project partners, and that [~~unless practically impossible or unreasonable-~~] the CLME+ Logo is to be used in conjunction with the official logo of the Donor and the GEF Agency (resp. GEF and UNDP)

# PROPOSED DECISIONS

## related to Agenda Item # 10

### The CLME+ Project Steering Committee (PSC) Members:

7. adopts the principle of **mandatory inclusion** of the **standard “Acknowledgements” text** on the CLME+ Project, as **[presented at]** **[amended during]** the 1<sup>st</sup> SCM, in any materials or products that are created with (financial) support from the CLME+ Project
8. adopts the **recommended standard text**, as **[presented at]** **[amended during]** the 1<sup>st</sup> SCM under the title **“Brief Project Description”**, as a recommended standardized brief project description for (optional) inclusion in CLME+ Project dissemination materials and reports
9. adopts the recommendation for **systematic use by all CLME+ Project Partners** of the **standardized project references**, as **[presented at]** **[amended during]** the 1<sup>st</sup> SCM, in their formal communications and publications

# **PROPOSED DECISIONS**

## **related to Agenda Item # 10**

### **The CLME+ Project Steering Committee (PSC) Members:**

10. The CLME+ Steering Committee Members **endorses the use of mapping terms, country and/or maritime boundaries, and associated codifications and/or derived statistics** in any written or electronic materials produced, disseminated or made publicly available by the CLME+ Project, **under the strict condition that the following Legal Disclaimer is systematically added: [...PLEASE FURTHER COMPLETE THIS....]**
