

The CLME Information Management System (IMS) and Regional Environmental Monitoring Programme (REMP).

Caribbean Transport List Deliverable D.3.7

The “Sustainable Management of the Shared Living Marine Resources of the Caribbean Large Marine Ecosystem (CLME) and Adjacent Regions” is a GEF funded Project. Its main objective is the Sustainable management of the shared Living Marine Resources of the Caribbean LME and adjacent areas through an integrated management approach that will meet the WSSD target for sustainable fisheries.

This document contains a list of shipping companies operating in the Caribbean, potential carriers of Ferrybox equipment providing real time and on line data on meteorological and hydrographical conditions in the Caribbean. In a next phase of CLME and IMS/REMP they could be approached to assess their willingness to participate in a regional Ferrybox exercise.

LIST OF SHIPPING COMPANIES POSSIBLE CARRIERS FOR FERRYBOX

Reporting date:
31/10/2012
